From the “Labs” tab you see more details about each lab in the different columns. A red flag in the “AB IND” column indicates that this lab is out of normal range. The “Results” column indicates the type of lab that was run. You can also see the “Facility”, “Ordering Physician”, and “Attending Physicians” in subsequent columns. The “Status” column contain codes that will be normalized in a future version.

From this view, you will see colored arrows indicating high or low abnormal results, as well as the lab values, "Reference Range", and "Units". Scroll down to click the "Original Documents" box to see the original document sent by the facility. Some relevant information is sent to HASA in free text sections and can't be broken into discrete fields, so make sure to view this document.

**Lab results from Metropolitan Methodist Hospital**

Result: Status: RE Date: 2017-10-09 16:13:00 Ordered By: -  
 Attending: - Specimen Date & Time: -

Observation	Status	Value	Reference Range	Units	Abnormal
BEDSIDE HEMOGLOBIN	unkno...	16.3	13.0-17.0	gm/dL	Normal
BEDSIDE HEMATOCRIT	unkno...	48.0	40-50	%	Normal
BEDSIDE SODIUM	unkno...	141	135-145	mmol/L	Normal
